The status you assign to the contacts in this file will only be applied to new contacts. Existing contacts will not have their subscription status updated, but any other data that may have changed will be updated.

Subscribed

When you choose the "Subscribed" status for your contacts, it indicates that you've gained permission to market to them.

These imported contacts will not receive a confirmation email or SMS notification from Mailchimp. Since you're adding them manually, they won't have an opt-in IP address or date in your records, so be extra sure you have permission first.

Finalize import

Review and complete your import

5 contacts will be updated or added to your "BuyNest" audience.

- Imported from: Copy and paste
- Email marketing status: Subscribed
- Update existing contacts: Yes
- Tagged: customer, online shopping, Influencer

The maximum number of contacts allowed on your Free plan is 250. If you go beyond 250 contacts with this import, your ability to send email campaigns may be impacted.
